Primary communication will be on a "personal" basis. You and I thru my Communication Network
My normal business hours are greatly expanded for your convenience, from 9:00 A.M. thru 9:00 P.M.

My normal work Telephone/Voice Mail is regularly monitored daily at the following *approximate* times: Note: weekends and especially holidays may be different or vary.

(Monitoring exceptions may occur due to commitments)

- 9:00 AM
- 12:00 Noon
- 3:00 PM
- 9:00 PM

If no answer: Please leave your question and/or topic, possibly your Day, Night, Pager, and/or Car telephone number(s) including area code, best time to reach you, and please speak in clear and precise way. Then when I monitor the call later, I can be properly be prepared and return your call in a timely an efficient manner. *The above communication system is not perfect, however I strive to be there for my clients.*

I allocate thousands of dollars per year to a "working Communication System". With your help, this will mean an efficient, effective, and working Communication System for you and everyone.

Thank you for your help,

Riley Scrivner
