MIDDLE SCHOOL
Test Results for
Phoenix Metro Area
Public Schools**

All school attendance boundaries are color-coded by Arizona's Instrument to Measure Standards Test results!

The results mapped represent the average percentile rankings for 7th grade reading, language and mathematics Arizona's Instrument to Measure Standards (AIMS) tests, administered in Spring 2010, as published by Arizona Department of Education in August 2010.

An average score was not provided by the Department of Education. Maps & Facts Unlimited, Inc. calculated an average by totaling the percentage of students who "meet the standard" and the percentage of students who "exceed the standard" for each subject. The totals of each subject were then summed together and divided by three. For example:

	Meet %	Exceed %	Total %
Reading	56%	19%	75%
Writing	46%	1%	47%
Math	30%	21%	51%
Average			58%

The attendance boundaries shown are for the 10-11 school year. The test scores are from the previous school year. A score listed as "N" represents a new school which would not have tested the past year. A score listed as "NR" represents a school which did not report scores.

This map does not depict charter or private schools.
