- Fastest, easiest and most reliable way to protect your computer and your data.
- Uses an encryption-based USB Key and super user friendly software to effectively control access to your laptop, desktop or tablet.
- Ideal [security solution](#) that does not require lots of technical knowledge to install or use.
- Just like using an ignition key, plug in your SecuriKey USB Key and enter your password to log on and access your data.
- Includes 2 matching SecuriKey USB Keys, so you have one to use and one to keep as a spare.
- Keep your data safe throughout the day, throughout your travel, and throughout your life.

You probably won't need to use it, but SecuriKey Professional also includes 30 days of free technical support and a No Hassle 30 Day Money Back Guarantee.
